

IN Club

Box Lunch Lectures

Interior Design at Villa Maria College presents:

**Suzanne
Lefebvre &
Leah Wilkins**

**Cannon
Design Firm
Introduction**

Please join Interior Designers, Suzanne Lefebvre, CID, WELL AP, and Leah Wilkins, CID, CHID, LEED AP, EDAC to hear about the exciting project work and design culture at Cannon Design, Buffalo NY studio. Suzanne and Leah will be sharing current interior design projects, the Cannon "Living Centered Design" ethos, as well as an inside look at what it's like to be a designer in a progressive forward-thinking firm.

We're a design practice at the nexus of architecture, engineering, construction, strategy, innovation and more. While our expertise is wide-ranging, we bring out the best in each other as we help incredible organizations dial up their impact. Our ability to think differently, dig deeper and go there is why Fast Company named us one of the 10 most innovative design firms in the world— three times in the last five years.

A firm overview presentation will take place with time following for questions. All student levels are welcome and encouraged to participate in an open dialogue.

THURSDAY,

October 10

Room 101

11:15am - 12:15pm

Free Admission
